Manpower Roster Optimisation - Final Assignment Deliverables

Roll number: ROLL_NUMBER_PLACEHOLDER (replace before submission)

Executive summary

This package contains a corrected-source, independently verified feasible roster and shipment-flow plan for the 30-day horizon. The staffing plan uses fixed employee-level stage and shift assignments, staggered FTC weekly offs, explicit one-hour Primary-to-Secondary eligibility, and a one-hour post-horizon processing tail. The result is reported as verified feasible; it is not labelled globally optimal because the implemented construction is a robust heuristic rather than a proven optimal MILP solve.

No exact MILP optimality certificate is claimed. This is a verified feasible construction with an independently reconstructed flow and cost check; the workbook and Python source preserve the assumptions needed for a subsequent CP-SAT/MILP optimisation run.

Key assumptions

The 10% Flex and PT limits are interpreted as headcount shares of the fixed employee pool, with FTC at least 80%. Hourly productivity is uniform during each employee's shift. Published percentages are normalised and allocated with largest remainder. Queues may carry across hours and days; the final D30 secondary shift includes a one-hour tail into D31. No labour is assumed after that tail.

Cost summary

Category	Headcount	Deployment days	Rate	Monthly cost
FTC	128	3288	■20,000/month	2560000
Flex	12	360	■700/employee-day	252000
PT	12	360	■12,000/month	144000
Total	152			2956000

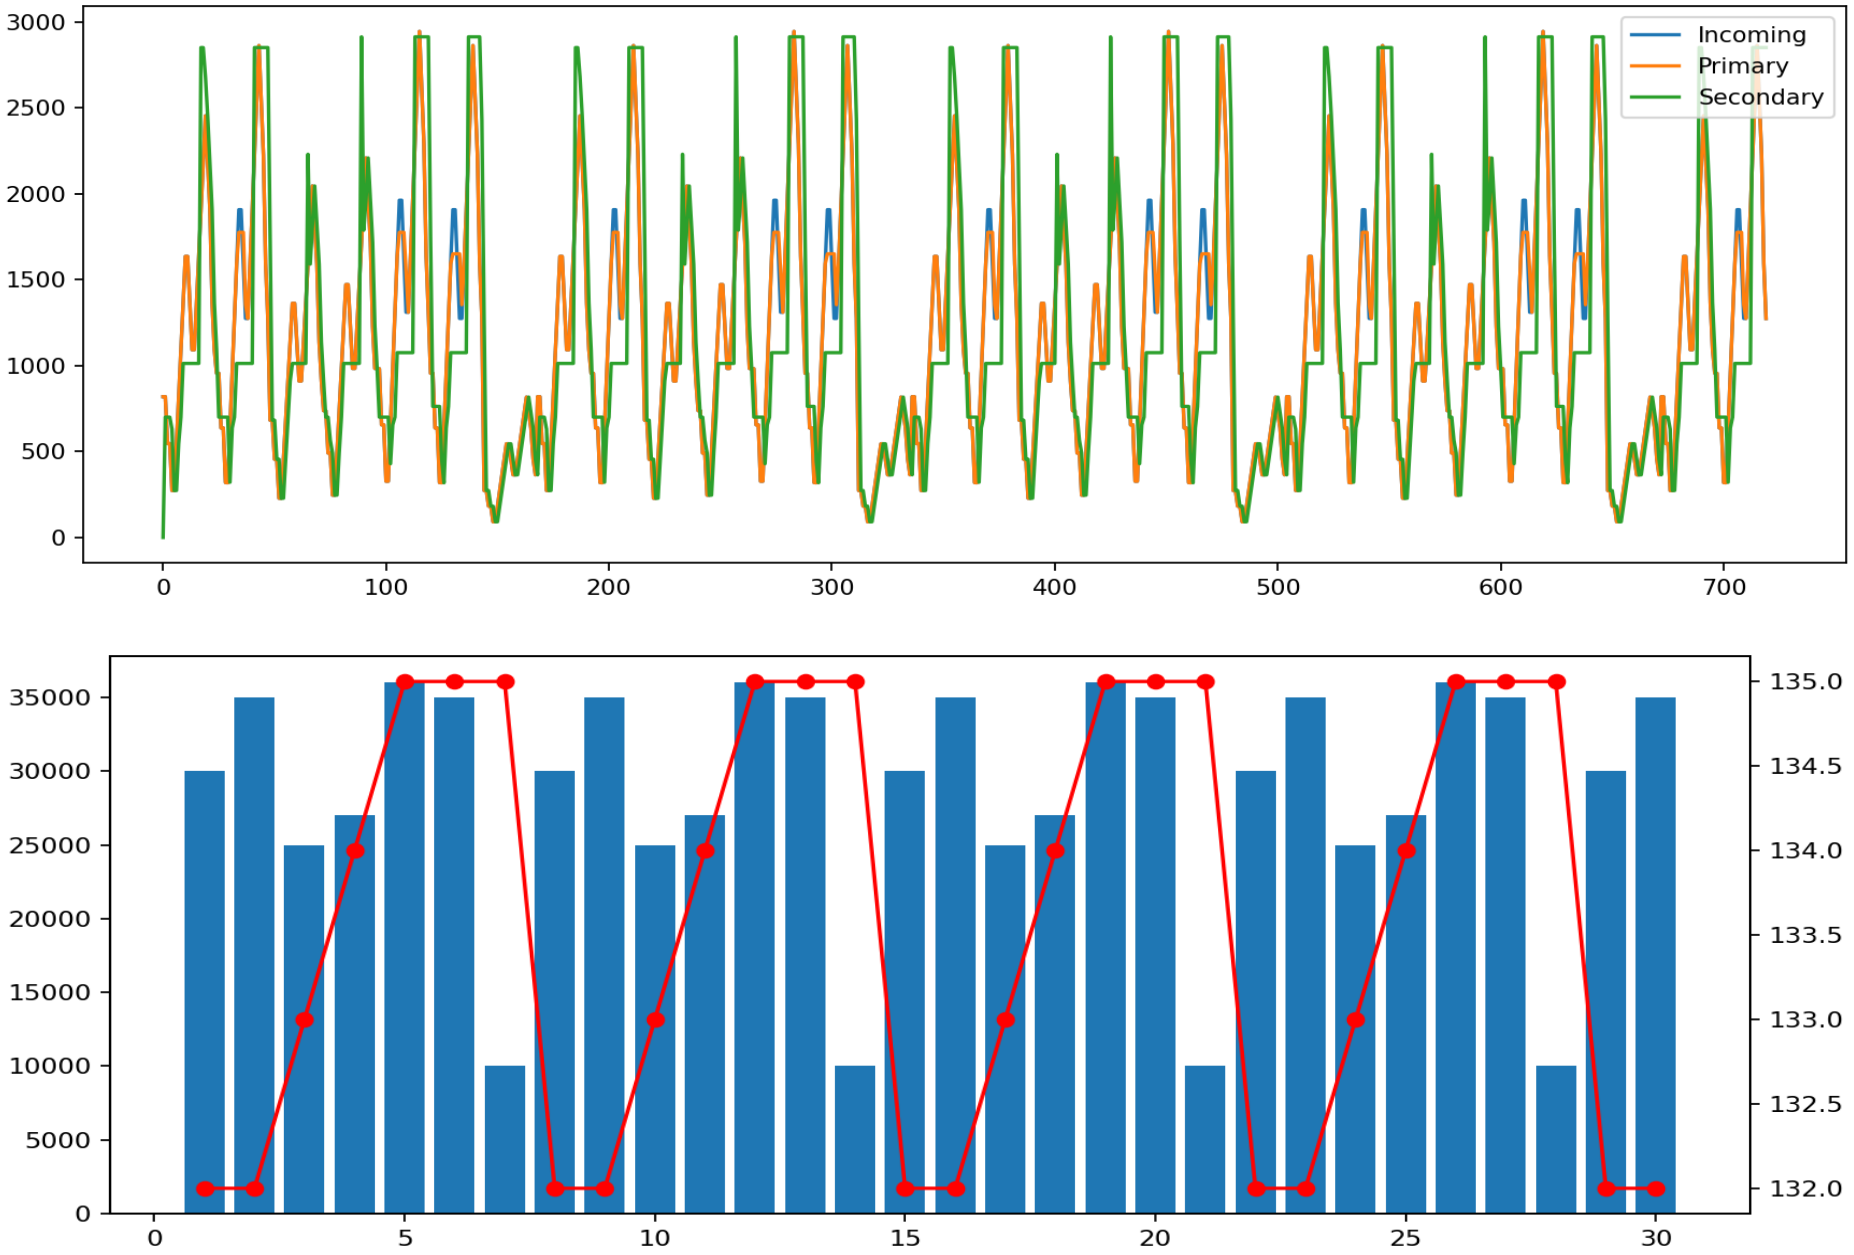

All-FTC comparison: a like-for-like 152-employee all-FTC roster costs ■3,040,000 before any productivity benefit. The mixed roster costs ■2,956,000, a nominal saving of ■84,000 (2.76%). This is a feasible comparison baseline, not a proven all-FTC optimum.

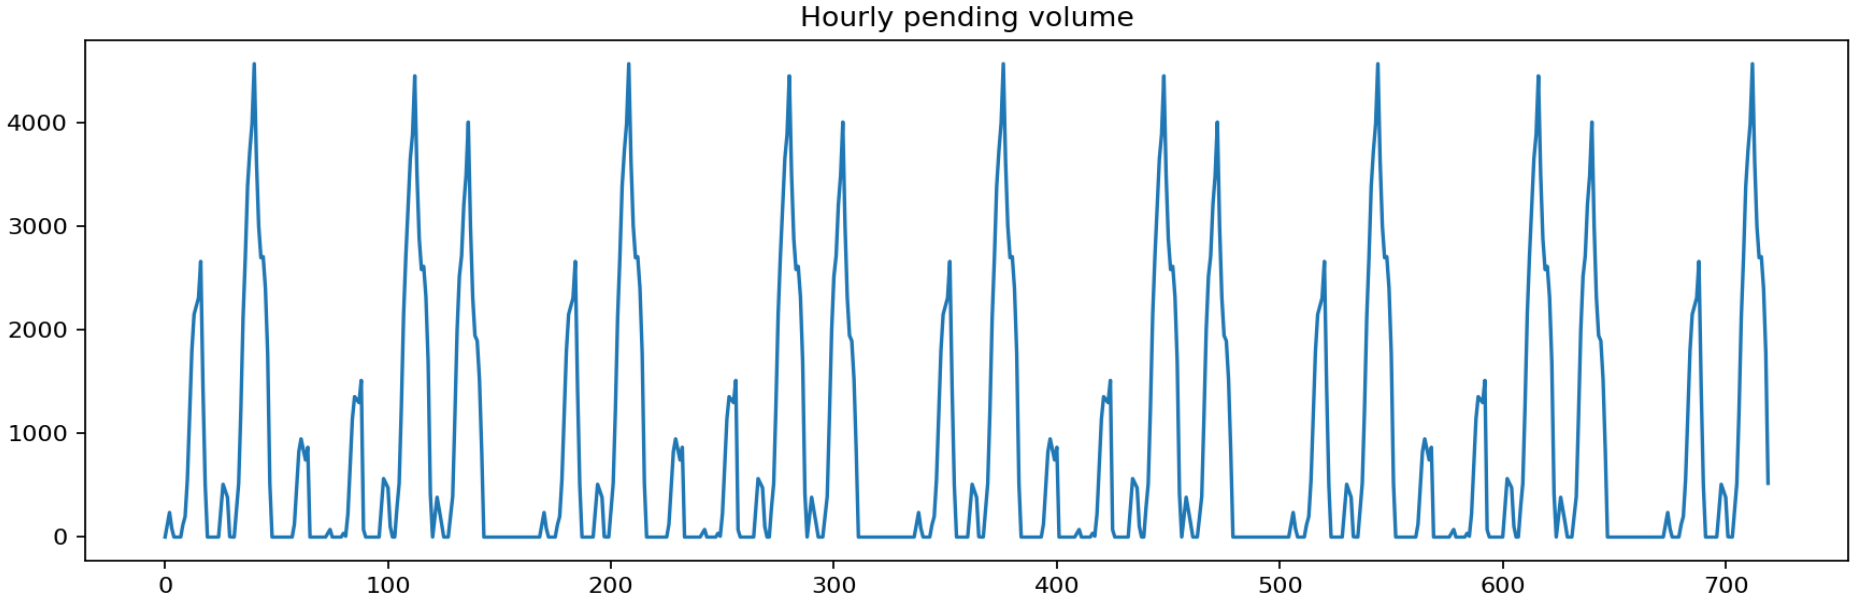

Validation

Check	Status	Evidence
Incoming totals	PASS	857000
Primary processed equals incoming	PASS	857000.0
Secondary processed equals incoming	PASS	857000.0
Nonnegative pending	PASS	0.0
Final backlog zero	PASS	0.0

Check	Status	Evidence
FTC weekly offs	PASS	4+ offs
Composition	PASS	FTC 84.2%; Flex 7.9%; PT 7.9%
